

## Disclosure of treated diamonds synthetics and simulants Product Integrity Policy

### Policy statement

- o GLD Diamonds Ltd. is committed to its customers and therefore the company will fully and proactively disclose all information about a diamond, treated diamond, synthetic, simulant and gemstone.
- o The management of GLD Diamonds Ltd. states that the company will make no attempt to mislead consumers through illustrations, descriptions, expressions, words, figures, depictions or symbols relating to the stones.
- o The management of GLD Diamonds Ltd. states that it will not use the unqualified word 'diamond' to identify any object that does not meet the definition of a diamond.

### Management and control

- o The management of GLD Diamonds Ltd. takes full responsibility for this policy and for its distribution and implementation throughout the organization.
- o The management of GLD Diamonds Ltd. declares that all relevant information regarding diamonds, treated diamonds, synthetics and simulants will be brought to the customers' attention by means of oral communication and by the receipt/invoice in understandable terms.
- o The management declares that all relevant information regarding the quality of the stone will be described immediately after the description of the stone itself and will be equally clear and detailed.
- o The management declares that it will not use the term 'Diamond' to identify any object that is not defined as a natural diamond according to RJC requirements.
- o The management declares that it will use Diamond Testing equipment when applicable to detect synthetic diamonds (See: GIA iD100 Testing procedure).
